

Please do not allow LPFM stations to take priority over current FM translators like K-LOVE. I keep all my radios tuned to K-LOVE. I find the material that I hear on K-LOVE to be uplifting and clean. I am encouraged everyday by K-LOVE. It promotes responsible behavior and service to others. The material helps de-stress everyone who hears it. I want to live in a community with low stress levels ... especially on the road ways!

Nothing that an LPFM could put out could possibly be any better than the material from K-LOVE. K-LOVE has experienced and professional staff. We need to keep our access to these dedicated people and the excellent material they present.

K-LOVE keeps us informed about the news from a different and more positive point of view than regular media coverage. It makes us aware of free-to-the-public events and activities in this area. The material presented by K-LOVE is family friendly, wholesome, encouraging and touches many, many lives in a very positive way. It would be a terrible loss to me and to the community. Please do not allow LPFMs to cause the loss of access to K-LOVE.

Thank you, Nancy J. Hunter
